Where to buy parts

…. where to buy parts outside the Rotax universe.
//Generally only reliable and proven parts and sources are listed here //

If you would like to contribute something here, you are welcome to send me an e-mail to wiki@kleinjung.de.

---

programmable ignition modules for Rotax 912 and 914
… the source of supply

In England there is apparently an approval for the Europa at:
https://www.theeuropaclub.org/building/europa-mods-and-sbs/laa-standard-mods
Unfortunately, I do not have access to the site and therefore cannot check whether the document could also be approved in Germany.

---

special parts for the Bing carburetors
…. not from Rotax….
This is only linked here because it is already available in the carburetor section.

---

part numbers of the copper sealing rings
… and their sizes, if you want to get some on the open market.

Universal radiator cap for 45mm connection (1.2 bar)
Price: 19,89€
- even if you only use the rubber gaskets, it is a cheap solution to have a working radiator cap.

The radiator cap from KTM
RADIATOR CAP SMALL 1.2 BAR
Item number: 49035016000
14,76 €
incl. 19% VAT

After the black radiator cap was already criticized by a pilot, I actually think the cap from KTM is better.
